Conditions We Treat

Whiplash, Auto Accident Injuries, Sprains/
Strains, Workplace Injuries, Headaches,
Spine and Joint Pain, and More

"The staff at Cascade Spine and injury are absolutely amazing!!!! They are very knowledgeable, very gentle and only want you to get better. After hurting my lower back at work, I went to them hoping for any kind of relief. After a few sessions my back was feeling great again! The whole staff encouraged me to continue doing the stretches and exercises they recommended, to keep my back flexible and I find myself not just needing to do them but wanting to do them. I would recommend Cascade Spine and Injury Center to everyone who has back pain and needs relief.

Thank you from the bottom of my heart."

Help Starts Here Patient Focused Healthcare

Auto Accident • Workplace Injury

Multidisciplinary Evidence-Based Injury Care

Team of Providers Focused on
Accident-Related Injuries

What do you do
after an accident?

What do we treat?

Ways we can help?

Why us?

How much?

Where can you
find us?

We have experience. Let us walk you through the process.

Headaches, neck and back pain, whiplash, and other accident related injuries.

We work directly with both auto insurance and attorneys to help you avoid confusion.

Our case managers guide you through treatment, and coordinate healthcare between doctors.

Treatment billed direct to auto insurance or on attorney letter of protection can prevent out-of-pocket expenses. We also accept most health insurance.

We welcome you at our Portland location: 5253 NE Sandy Blvd. 97213.

We Treat You Differently

Beyond healthcare, we understand how to deal with auto insurance companies, workers' compensation claims and with law firms. Our network of professionals will also guide you through the insurance process.
